

Thank you for opening my eyes to the essence and incredible impact of the NPO. I know now how much this educational tool MUST be a part of my office and must be fine-tuned and perfected on a constant basis. When I sat there watching my brothers and sisters of TNR speak from their hearts and educate us about true health, I could not help but be completely inspired and actually learn something too! Imagine what a patient must think as they sit and watch a Renaissance chiropractor present this information. I cannot wait to begin doing the NPO in my office in the next couple of months. I look forward to feeling that wonderful sense of energy as I open the hearts and minds of those who are looking for a leader in the health field.

-Dr. Randy
